Dear Members of KU Alumni

Greetings! from Karnavati University

Hope you and your family members are keeping well

On behalf of 4500+ alumni of this august institution, I am privileged to welcome you to the "Karnavati University Alumni Association". The purpose of the Alumni association is to provide a connecting arch to all members wherein, they can share their work, achievement and plans while pursuing their work in diverse areas across the world. Your university has been making rapid strides with the establishment of a new school; Unitedworld School of Computational Intelligence-USCI, a plethora of international collaborations and extending its support to people.

The University has established a state of the art 'defence incubator' titled- "Defence Design Technology Incubator of India" (DDTII) besides a sector-agnostic incubator- KIIF. So, your University has become the founder of not one but two incubators.

Our Defence incubator (DDTII) is hosting a mega defence challenge, in association with 'DRDO' (Defence Research Development Organization), CII and Army Design Bureau (ADB) between 26 to 28 Feb 2022.

I am hopeful that Karnavati University Alumni Association will achieve its aim to provide a platform for you to connect with your friends, batchmates, faculty members, university and to the vast resources available here. From a dedicated alumni website to the association's social media platforms to an extraordinary variety of programs, we have designed all of these to support you as you pursue your post-academic life and career. With a couple of initiatives already running (Know Your Alumni, Alumni MasterClasses, Learning events) and a number of events and initiatives planned (Alumni Chapters, chapter meet-ups, alumni webinars, alumni reunion, mentorship programs), the department has been working tirelessly to help and support our alumni. Alumni Cell would be rolling out chapters in major cities as well as planning a 'five-year reunion' for you. We encourage you to engage with your alma mater. There are a number of ways to do that; from career and academic mentoring to volunteering for 'On Campus' as well as 'Off campus' events, attending academic and social events. Whenever you are in the city, do visit your university and relive your good old days and carry a sense of happiness. Should you have any questions, please feel free to reach out to 'Alumni Cell'

Our best wishes remain with you
