UWSL

I realized the true function of a lawyer was to unite parties riven asunder. The lesson was so indelibly burnt into me that a large part of my time during the twenty years of my practice as a lawyer was occupied in bringing about private compromises of hundreds of cases. I lost nothing thereby-not even money, certainly not my soul.

~ Mahatma Gandhi.

When we look back over period from 1765 onwards, when Industry progressed from norms of Industry 1.0 (family system and use of basic machines powered by steam) to Industry 4.0 (full automation aided by artificial intelligence), it is evident that progress did not come without wars, civil unrest, pandemic and other major disruptions which were steadily overcome by human spirit, propelled by 'knowledge factor'. Therefore, seeking of knowledge and learning methods for apt application, is of paramount importance in today's superbly connected 'jet-age' world, for which our university is an ideal cradle. Interestingly, name – 'Karnavati' has historic connection with Manchester of east- Ahmedabad. There lies a strong motivation, for us to stick to our traditions as well as care for a vibrant flora and fauna at our pristine campus. You are invited to experience 'happy feeling' by visiting 'Karnavati University' (KU). Our academic community prays for your well-being. Stay Safe and Happy.

LEARNING MODEL - BBA LL.B

B.B.A. LL.B., (Hons.) 5 Year Integrated Programme provides an integrated understanding of the interrelationship of Management Studies and Law in their entirety than in specified areas. Law graduates are no longer limited by the option to choose litigation as their profession.

There are many exciting opportunities for them in the corporate system, which include roles such as legal associates in law firms as well as in-house counsels in

companies, among others. Legal practice in a corporate system becomes easier if the lawyer is also aware of the business and management practices in business organizations. This requires graduates to not only understand the law but to also possess subject-matter expertise in corporate and business administration.

TIME SCALE

*Specialization offered will be subject to minimum number of students opting for the same.

PROGRAMME STRUCTURE

Being a course centered on business administration, the BCI recommends that the non-law courses may be selected from a variety of streams, including social sciences, management and commerce. This allows for a more contextual study of a specific law stream. For example, a commerce course in international trade, along with a law course on indirect taxation, would serve as a good foundation for a course on international trade law in a subsequent semester

The B.B.A. LL.B Programme consists of the following courses taught over the course of 5 years:
